

Tapilink Business Card Design Guidelines

Main Card Size: 85.5 x 54mm

This is the exact size of your business card, align your artwork perfectly for a professional finish.

Safe Area: 82.5 x 51mm

Keep everything important (such as text & logos) within this area.

Do's

- Ensure your file is edited and saved in CMYK color mode for accurate printing.
- When exporting to PDF, outline all text by selecting your artwork, and press **CMD/CTRL + Shift + O** on the keyboard
- Save your file as PDF/X-1a if it includes both text and images.
- Remove the Design Guidelines layer before saving and submitting your final file.

Don'ts

- Do not flatten layers or images.
- Avoid adding unnecessary bleed, print, or crop marks to your files.
- Do not save multiple designs in a single PDF;
- Each design must be uploaded individually to Tapilink.co.uk.
